Discussion

Introduction

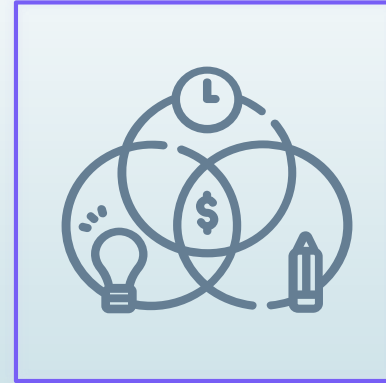

Decentralized social network and NFT platform for pets. Where you can share photos and videos of your pet's life, rescue puppies, adopt a pet, find pet friendly places and take advantage of our useful pet services. Dog protocol.

Our Project

Phu Quoc Dog (PQD) is a real coin for real services such as purchase food and running a campaign on our platform so you can get more money!!

PQD is a Substrate-based Polkadot para-chain. PQD is committed to provide easy-to-use blockchain infrastructure and creating a one-stop comprehensive infrastructure platform, which aims to reduce the threshold and cost for developers while bringing them great returns.

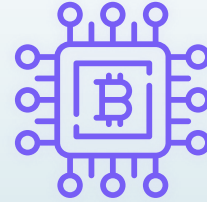

Our Future

Mission

To build a community where people value animals and treat them with respect and kindness.

Vision

A humane and compassionate future for every animal's friend

Token Economics

Treasury

The biggest chunk of tokens, 21% (19.7076 Billion PQD), is locked up in the Treasury.

Parachain auction

10% of the total number of tokens will be reserved for the Parachain auction.

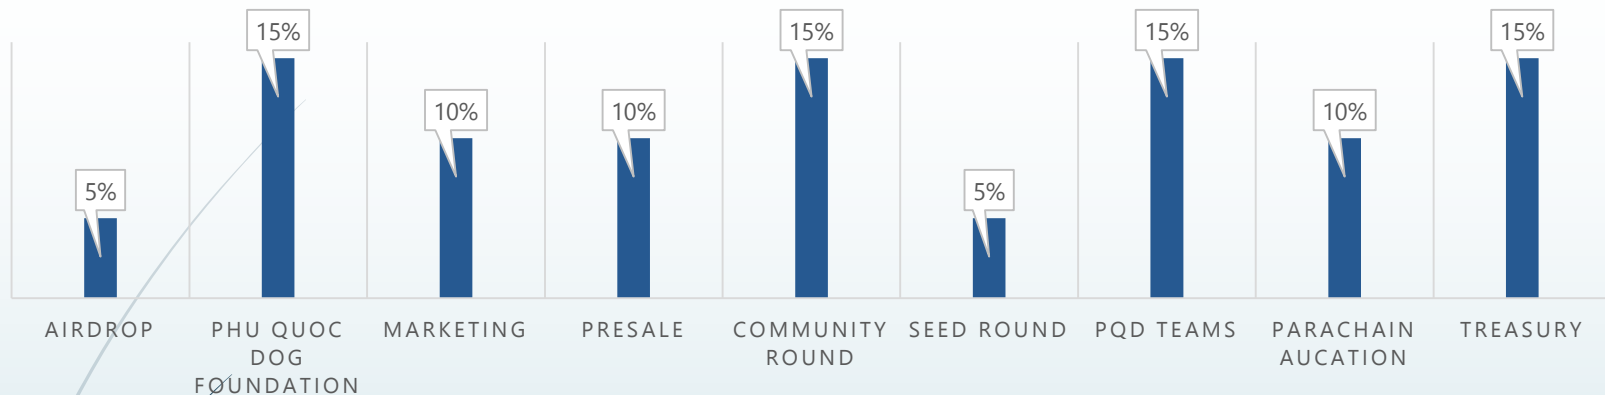

Staking

Staking will incentivise users to hold PQD in order to receive rewards in PQD tokens.

Parachain, Integrations & Bridges

It is important for Phu Quoc Dog to become a parachain in the Polkadot network

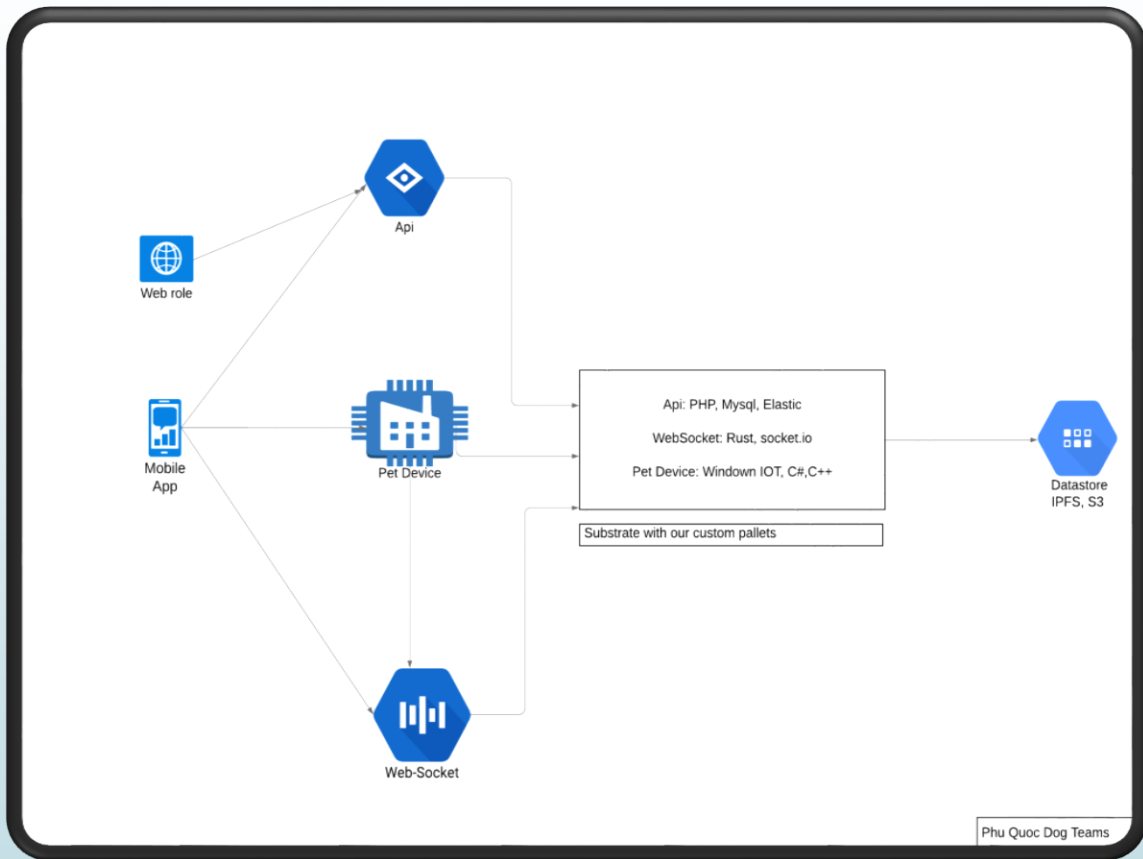

TOKENOMICS & STATS

90,000,000,000 PQD

Bringing the best returns for investors

Architecture

- Back-end developed in PHP, running on MySQL, Elastic and using Web3js.
- UI and Mobile app developed in React.js and React native.
- Blockchain part : Substrate Technology, either ready-to-use framework or Parathread (and Relay Chain).
- Substrate Wallets supports blockchain Phu Quoc Dog and Polkadot.

Technology

Blockchain Operating System

Phu Quoc Dog is a Blockchain Operating System, which contains storage layer, smart contract layer, Defi protocol layer and eApp layer

Substrate is technically fit for Phu Quoc Dog. By building on top of Substrate, Phu Quoc Dog is able to leverage the extensive functionalities that Substrate provides out-of-the-box
